# 1. About IIIT-Delhi

## Background

Indraprastha Institute of Information Technology Delhi (IIIT-Delhi) was created as a State University by an Act of Delhi Government (The IIIT-Delhi Act, 2007) empowering it to do research and development and grant degrees. The mission of IIIT-Delhi is to be a global center of excellence in Information Technology education, training and research. Its twin aims are:

- To carry out advanced research and development in the area of Information Technology and in leveraging IT in specific domain areas.
- To train and educate, at both undergraduate and postgraduate levels, engineers of outstanding ability who can become innovators and new product creators.

The Institute has its permanent campus in Okhla with state of the art infrastructure and all the modern facilities to carry out world-class research. IIIT-Delhi currently has 6 departments (Computer Science, Electronics and Communications, Computational Biology, Human Centered Design, Social Science and Humanities, and Mathematics); 4 Research Centres (Infosys Centre for Artificial Intelligence, Centre for Computational Biology, Centre for Design and New Media sponsored by TCS, Centre for Technology and Policing); 60+ regular and 20+ visiting faculty members, all having Ph.D. from world's best institutes.

Governed by the able leadership of a distinguished Board of Governors and equipped with highly qualified and accomplished faculty members, the Institute has established a strong research culture, focused research groups, and innovative education programs. The institute is accredited 'A' grade by NAAC (National Assessment and Accreditation Council) and has been accorded 12-B status by the University Grants Commission (UGC). QS also ranked IIIT-Delhi in 'top 50' in their India Rankings and 'top 200' in their BRICS ranking.

The Institute is moving forward as a community and is firmly on the path to, sustainability and transformation, and thus becoming a globally respected and recognized institution. The management is committed to achieving certain goals to create an environment wherein intellectually capable, innovative and entrepreneurial professionals are nurtured and trained to work unceasingly to serve the nation and society.

## Infrastructure and facilities

IIIT-Delhi has been operating from its permanent campus in Okhla Phase III, since August 2012. The 25-acre campus has facilities for teaching and research, hostels for both boys and girls and provisions for sports. With the completion of Phase II construction, the Institute now has an auditorium and a total of 25 lecture halls of varying sizes. There is one auditorium of capacity 500, two big lecture halls of capacity 300, three lecture halls of capacity 160-180, four of capacity 120, two of capacity 60 and fourteen of capacity 25-50. The lecture hall block has several labs on the second and third floors. The Faculty and Research wing has a capacity of 120 faculty offices and 58 research labs, along with Ph.D. rooms and M.Tech. labs. The Library and Information Center has a common study area for students on the ground floor, and a highly equipped library on the first floor.

The Dining and Recreation Centre contains the students' mess, facilities for extracurricular activities, such as a music room, art room, table tennis, pool tables and a gymnasium which are spread over three floors. Cafeteria, ATM facility, stationery shop and open space for students are available at the ground

floor. Life at IIT-Delhi is more than just classes and homework's. Several student clubs in the Institute enable students to enhance talents in areas beyond academics. There are 22 active student clubs, sports committee and cultural committee to look after the sports, recreation, technical and cultural aspects needed by the students, three extremely popular technical, cultural and sports fests. The Institute organizes an independent TEDxIIITD every year bringing the finest young leaders and their ideas worth spreading.

IIT Delhi provides accommodation to students wishing to reside in the hostels. At present, there are three hostels, two for the boys having 372 and 394 beds and another for the girls with 164 seats. There are also 22 married hostel accommodations available for married Ph.D. students. Each room of the hostel is provided with furniture needed by a student - bed, table, chair, bookshelf, cupboard, etc. The rooms are provided night time air conditioning in summers, and heating in winters. High-speed Internet connectivity is also available in hostels. At present, the hostels have options of single, double and triple occupancy rooms, all of which are air-conditioned. There are 4 guest rooms available at the hostels for guests visiting the Institute. All hostel students are completely free to move around the campus at all times, and some of the study areas are open 24x7 for the benefit of students. In order to provide 24x7 medical cover for our Faculty, Staff and students both staying in hostel and day scholars the Institute has setup an Infirmary at Ground Floor in the girl's hostel.

Each hostel also has a Hostel Committee which is an advisory body comprising the Dean (Student Affairs) and the elected student representatives as its members. The Hostel Committee also coordinates with the Mess Committee for the running of the mess. Students can relax in the evenings or on holidays, or spend their leisure time in the Common Room which is equipped with a TV, newspapers and magazines. Sports and other recreational facilities are available on the upper floors of the dining building. New hostel building H2 and extensions of girls' and boys' hostel are about to be commissioned soon; it shall overall increase the hostel intake for around 1800 students.

## About the programs

The Institute is offering admission into seven B.Tech. programs: Computer Science and Engineering (CSE), Electronics and Communications Engineering (ECE), Computer Science and Applied Mathematics (CSAM), Computer Science and Design (CSD), Computer Science and Social Sciences (CSSS), Computer Science and Biosciences (CSB) and Computer Science and Artificial Intelligence (CSAI).

The B.Tech. program in CSAI is a new Program, started this year. This program will provide students an opportunity to learn both foundational and experimental components of AI and Machine Learning. A student completing this program will be able to undertake industry careers involving innovation and problem solving using Artificial Intelligence (AI) and Machine Learning (ML) technologies and research careers in AI, ML, and, in general, Computer Science areas. More information about the program is available on the Institute website.

Since the current technological era is rich with opportunities for systems integration of technologies from various disciplines to serve the larger goals of society, IIT-Delhi aspires to provide an environment for interdisciplinary teaching, research, and learning. Our curriculum is flexible and allows students to register in elective courses in 3<sup>rd</sup> and 4<sup>th</sup> years from different programs of CSE, ECE, CSAM, CSD, CSSS, CSB and CSAI. The curriculum of all seven programs also includes Social Sciences courses. We believe that our engineering programs provide the necessary depth and broad systems-centric educational experience for long-term success in the emerging cutting-edge industries in the field of IT and engineering.

The curriculum of the first semester is common to all the seven programs allowing eligible students to move from one program to the other. The first two years' curriculum comprises mostly of core courses

for the disciplines. Unlike a conventional engineering institute where students study science courses such as physics, chemistry, etc. in the first year, IIT-Delhi students study courses related to programming, hardware, mathematics, as well as communication skills, etc. However, we do provide flexibility to students to study science courses through electives. This allows students to study these science courses according to their interests and aspirations.
