

FINAL AGENDA

Digital Delhi Conclave: IT and Health of All

7th December, 2019

Venue: IIIT-Delhi

9:30 am - 11 am: Conclave Debate - India faces a huge 'health for all' challenge, can technology save the day?

In its inaugural year, the Digital Delhi Conclave will host a bespoke event where student teams will debate one of the most significant questions relating to IT and the future of healthcare. The proposed motion seeks to argue that India, and Delhi in particular, needs a health care revolution, how far can technology solve this problem? Can we really afford the costs? Are privacy issues too daunting to propose a new big data based system? Is the healthcare education and service delivery mechanism prepared to take on the big data driven agenda? In brief, are countries like India ready to take up technology innovations to meet the sustainable development challenge?

Teams registration to open from 18th November, 2019
