STUDENT AFFAIRS

OCTOBER , 2024

This October was a showcase of student talent,
collaboration, and cultural diversity at IIIT-Delhi.

Spardha, IIT BHU Varanasi, 2024

(26 October - 28 October, 2024)

IIT-Delhi achieved an unprecedented feat at [#Spardha2024](#), the prestigious sports fest hosted by IIT BHU Varanasi, with outstanding performances across multiple disciplines.

A contingent of 128 athletes represented the college under the leadership of Hitesh Kumar and Pratham Singhal, competing in 11 sports teams: Basketball, Football, Table Tennis, Chess, Volleyball, Squash, Lawn Tennis, Badminton, Powerlifting, E-sports, and Cricket. This large-scale participation, combined with the dedication and skills of our athletes, resulted in one of the most successful campaigns in the college's history.

Medal Highlights:

Gold: Girls' Football, Boys' Lawn Tennis, Boys' & Girls' Badminton, E-Sports, and Powerlifting

Silver: Boys' Squash, Powerlifting

Bronze: Chess, Squash (Individual), Girls' Squash

A proud moment for our athletes, exemplifying IIT-Delhi's spirit of dedication and teamwork.

Health Camp with Quantum Resonance Magnetic Analysis

(16th October, 2024)

On October 16th, 2024, a Health Camp will be organized in our institute, offering an exciting opportunity for students and staff to gain insights into their physical well-being. The camp, hosted at the H1 common room from 11:00 am to 4:00 pm, will feature the Japanese Quantum Resonance Magnetic Analyzer (QRMA), a groundbreaking non-invasive health assessment tool. Unlike traditional methods, QRMA scans the body's bioelectromagnetic field, offering a holistic health analysis without invasive procedures. This advanced technology is particularly beneficial in detecting potential health issues early by highlighting imbalances within the body. Attendees can expect comprehensive reports on various aspects of their well-being, encouraging preventive care and proactive health management.

A purple promotional poster for a 'FREE Health Checkup Camp'. The top section features the text 'FREE Health Checkup Camp' in large white letters, with the tagline 'Be aware, live healthier! Don't miss it!' below it. To the right, there is an image of a medical device (QRMA) and some medical supplies. The bottom section has a white box with the text 'Get FREE Doctor consultation & Quantum Resonance Magnetic Analysis (QRMA) done!' and a sub-section titled 'What does it offer?' with three bullet points: 'Non-invasive Analysis: Assess body's bioelectromagnetic field for health insights without invasive procedures.', 'Early Detection: Detects potential health issues by spotting imbalances early.', and 'Holistic Overview: Offers a comprehensive view of overall well-being across multiple health aspects.'

Capturing the Cosmos: An Evening of Astrophotography and Stargazing

(17th October 2024)

On the evening of 17th October 2024, the Astronuts Club hosted a memorable Astrophotography Workshop and Stargazing Session, held at A-006 in the R&D Building. The event attracted both astronomy enthusiasts and curious newcomers eager to capture the beauty of the cosmos.

The workshop began with an introduction to the essentials of astrophotography, where participants learned camera settings, exposure techniques, and framing tips essential for photographing celestial objects. Guided by experienced club members, attendees got hands-on experience with professional equipment, giving them a new perspective on the art and science of capturing the night sky.

As the evening progressed, the group transitioned outdoors for a much-anticipated stargazing session. Armed with newfound knowledge, the participants gazed up, spotting constellations, planets, and even glimpses of faint nebulae through telescopes provided by the club.

Anime Roundtable: A Gathering for IIIT-Delhi's Anime Enthusiasts

(18th October 2024)

On October 18th, anime fans across campus came together in BO02 R&D for a lively Anime Roundtable organized by the Language & Debate Association (LDA). This unique event gave fans a chance to dive deep into discussions about their favorite shows, engage in friendly debates, and compete for the title of ultimate anime fan.

Participants showed up with enthusiasm and knowledge, ready to analyze plots, dissect characters, and even debate popular theories across genres. The rounds were competitive but friendly, each participant eager to share their expertise and showcase their love for anime. With cash prizes worth ₹1,500 at stake, the event's atmosphere was both intense and celebratory.

The LDA team did an exceptional job in creating a space where anime lovers could connect, bond, and prove their fandom. The Anime Roundtable highlighted the vibrant subculture within our community, bringing students together in a shared passion that extended beyond the screen and into real conversations.

Empowering Creativity at the PCB Design Workshop

(17th October, 2024)

Electroholics hosted an engaging PCB Design Workshop at B-003, R&D Building, drawing in a crowd of enthusiastic students eager to explore the fascinating world of electronics and circuit design. This workshop offered an invaluable opportunity for Second-Year ECE and EVE students to enhance their technical skills while seamlessly integrating with their coursework.

The session kicked off with a focus on KiCad, a powerful yet user-friendly PCB design tool. Participants received hands-on experience navigating the software, learning the essential workflow needed to design their own printed circuit boards. The workshop not only emphasized practical skills but also fostered an environment of creativity and collaboration among attendees.

One of the highlights was the PCB Designathon, where students could apply what they learned in a competitive yet fun setting. Participants designed their own PCBs, getting them manufactured and assembling projects that showcased their innovative ideas. This aspect of the workshop ignited a spirit of friendly competition, encouraging students to think outside the box and push the boundaries of their creativity.

Unlock Your Research Potential with URC: A Gateway to Exploration

(23rd October, 2024)

The Undergraduate Research Club (URC) at IIIT-Delhi hosted an enlightening event titled "Intro to Research," designed to equip students with the knowledge and resources to embark on their research journeys. With an enthusiastic turnout, this flagship event served as a platform for aspiring researchers to explore diverse fields, gain hands-on experience, and build a robust foundation for their future academic endeavors.

The event kicked off at 6:00 PM in B-105, creating an inviting atmosphere where students could engage with mentors and peers.

The event concluded with a strong emphasis on the significance of research in shaping academic and professional futures. Participants were encouraged to network, share their aspirations, and gain insights that would empower them to navigate their research journeys confidently.

Book club meeting

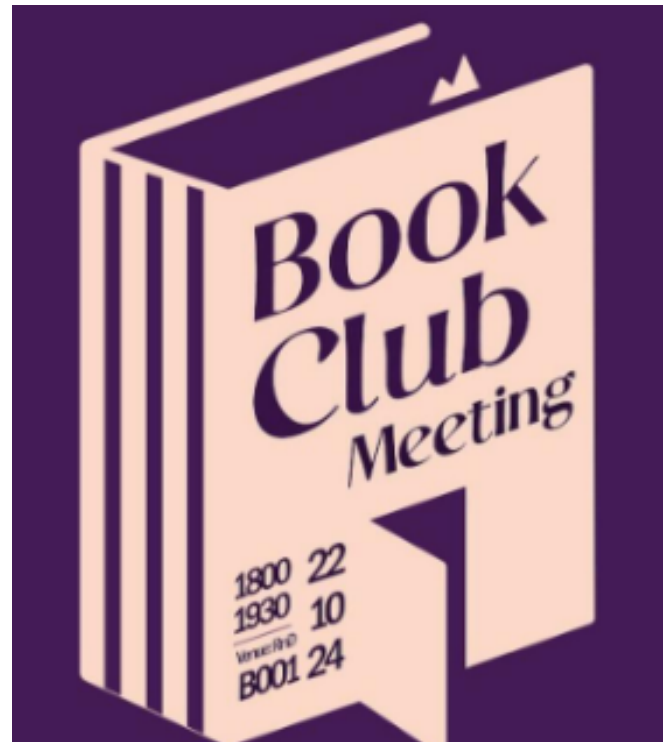

Women in Tech Club: Empowering Women, Inspiring Change

In October, the Women in Tech Club at IIIT-Delhi held an inspiring induction meeting that warmly welcomed new members into its vibrant community. The event was filled with enthusiasm as existing members and newcomers gathered to connect, share experiences, and discuss the club's vision for the upcoming year. The club aims to foster a supportive environment that champions the growth and achievements of women in technology, empowering them with the resources, mentorship, and skills to excel in their fields. The induction meeting highlighted the club's commitment to breaking down barriers and creating opportunities for women to thrive in tech.

This past October, our Literature and Debate Society, LDA, hosted a memorable BookClub Meet—a haven for readers to connect, converse, and celebrate their shared love of literature. The event brought together students from diverse backgrounds, each with a passion for stories and a desire to delve into the depths of their favorite plots, characters, and authors.

The BookClub Meet proved to be an engaging space filled with lively discussions on beloved genres, from the comfort of classic novels to the thrill of mysteries and the allure of romantic tales

Qalam: Online Poetry Competition for Vigilance Week

This Vigilance Week, IIIT Delhi embraced creativity and integrity with "Qalam," an online poetry competition that inspired students to voice their thoughts on building a "Culture of Integrity for Nation's Prosperity." Qalam provided a platform for budding poets to express their views on integrity and nationalism, capturing the essence of ethical responsibility and patriotism in powerful verses. Participants were encouraged to explore this theme in Hindi (Devanagari), Urdu (Nastaliq/Naksh), or English, with a maximum limit of 20 lines per poem. Through the competition, students reflected on how integrity can foster stronger, more prosperous communities, contributing to a brighter future for our nation.

Meraki X Odyssey: Rangoli Making Competition for Diwali

This Diwali, the Meraki and Odyssey team at IIIT Delhi teamed up to organize an exciting Rangoli Making Competition, encouraging students to celebrate the festival of lights with creativity and color. Participants were invited to share their beautiful Diwali rangolis, spreading the spirit of prosperity and well-being.

Students shared their stunning rangoli creations on Instagram, tagging Meraki to celebrate their talent and the joy of Diwali!

Unleash your creativity this Vigilance Week

This Vigilance Week, Meraki invited students at IIIT Delhi to channel their artistic talents for a meaningful cause through an inspiring Poster-Making Competition. Held from October 30 to November 2, the event aimed to raise awareness about the importance of vigilance and integrity.

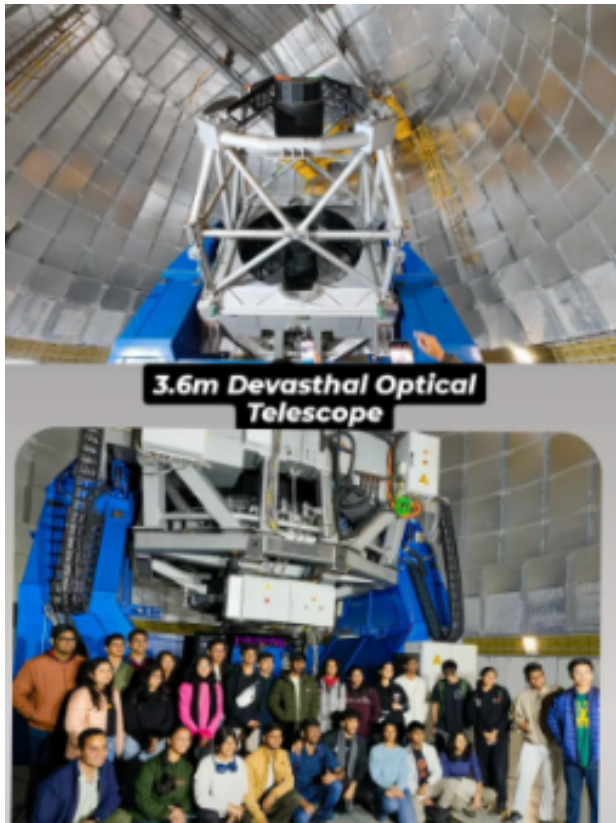

Participants were encouraged to create impactful posters reflecting the theme of Vigilance Week, using their art to advocate for transparency, accountability, and a culture of honesty. The competition was not only an opportunity for students to express their creativity but also a chance to contribute to a broader conversation on integrity.

Catnect: 30 Days of Artistic Expression!

This month, the art society Meraki, brought a burst of creativity to IIIT Delhi with its 30-day art challenge, Catnect, encouraging students to unleash their imagination and create art based on daily prompts. Organized by our community of artists, Catnect became a platform for students to experiment with different styles, techniques, and ideas, all while sharing their unique perspectives.

Each day, participants received a new word as a prompt, sparking inspiration and inviting them to turn these simple concepts into captivating masterpieces. From digital art to traditional sketches, every submission showcased the immense talent and creativity that flourishes within our college.

3.6m Devasthal Optical Telescope

Astronut Club’s Stellar Excursion to Mukteshwar

The Astronuts Club at IIIT Delhi recently embarked on a thrilling excursion to Mukteshwar, where the students experienced the wonders of astronomy.

A highlight of the trip was visiting the renowned 3.6m Devasthal Optical Telescope, Asia’s largest and most sophisticated telescope.

Set against the picturesque backdrop of Mukteshwar, the observatory offered students a rare opportunity to observe distant celestial objects and learn from professional astronomers.

Fostering Growth and Well-being: SMP and WBC Workshops at IIIT Delhi

October was a month of support, growth, and well-being at IIIT Delhi, with a series of enriching sessions organized by the Student Mentorship Program (SMP) and the Well-being Center (WBC).

10th October : The Happiness Project

The WBC hosted The Happiness Project, a webinar centered around cultivating positivity and resilience.

16th October : Inner Engineering Program Introductory Session. This insightful session introduced students to the program.

23rd and 25th October : SMP sessions with CSE and CSAM students

As part of the SMP, CSE and CSAM students had the opportunity to connect with experienced mentors who shared insights on academics and professional pathways. The sessions encouraged open dialogue, creating a space for students to discuss challenges and seek support.
