

Job Title: Research Associate - Sustainable Groundwater Use

Location: [IIIT Delhi]

Employment Type: Full-time

Duration: 6 months, extendable

About Us:

IIITD is a cutting-edge research institution dedicated to advancing the understanding of technology's impact on society. We are seeking a highly motivated and intellectually curious researcher to join us to contribute to understanding lessons learned in the sustainable use of groundwater resources, documenting which interventions have been implemented, and the extent to which they have been successful.

Key Responsibilities:

1. **Literature Review:** Review and synthesise existing academic and policy literature on sustainable groundwater use and identify major gaps
2. **Policy Analysis:** Document groundwater-related policies, legislation, and regulatory frameworks at the local and state levels. Assess their impact on groundwater use, productivity and economic viability.
3. **Collate grey literature and data sets:** The successful candidate will be expected to travel to selected state government institutions to collect and document relevant data and grey literature.

Qualifications:

- A Postgraduate or equivalent advanced degree in economics, public policy or related field
- Strong research and analytical skills, with the ability to critically assess and synthesize complex information.
- Ability to travel to collect grey literature and data

Benefits:

- Monthly salary: approximately Rs. 50,000-Rs. 60,000 depending on experience

How to Apply:

Please submit your CV, a cover letter, to rubina@iiitd.ac.in before **July 31, 2024**

IIITD is committed to fostering a diverse and inclusive work environment. We welcome applications from all qualified candidates
