Process	Last Date
Detailed CVs are invited. The CVs will be processed as soon as they arrive.	6/11/17
All CVs that are selected for next step will be notified by email. Please note that only successful candidate will be notified.	10/11/17
Interviews & Result	Starting 16/11/17
Acceptance of Offer	1/12/17
PhD position joining date	15/12/17

What we expect from you:

1. Good knowledge on basics of computer science topics like Algorithms, Data Structures, and Databases.
2. Strong systems and networks background – knowledge of topics like OS/OS internals, computer networks, compilers/assemblers, programming in C/C++
3. Perseverance towards his / her own work.
4. Passion
5. Positive attitude.

What you can expect from us:

1. Challenging work and professional environment.
2. Opportunities to learn beyond the project through tasks and interactions with national and international experts.
3. We believe in work hard and play hard.

Selection Process:

1. The selection will be based on your performance in the interview (online or on-site) as assessed by the committee members.
2. This is a special round and PhD positions are available only with the faculty members mentioned in the advertisement.
3. Only selected candidates will be notified for Interview. If you do not receive an email by 10th Nov 2017, then your CV has not been selected for the next stage.
4. The interview may be conducted online (if the candidate is not near Delhi or cannot come to Delhi) or on-site. You may also be asked to appear in more than one interviews to assess your suitability for the PhD program.

Application Process:

1. Please upload your CV & SOP at <http://bit.ly/cercphd>
2. The applications will be processed as they arrive.
