

IIIT-Delhi Set to Host Annual Research Innovation And Incubation Showcase (RIISE 2024) on March 15th-16th

New Delhi, India, [29 February 2024] - Indraprastha Institute of Information Technology Delhi (IIIT-Delhi) is proud to announce its upcoming flagship event, the Research Innovation and Incubation Showcase (RIISE) 2024, scheduled to be held on March 15th-16th, 2024.

This dynamic event will convene luminaries from academia, industry, and government, fostering a collaborative platform aimed at translating academic brilliance into tangible impact. Embracing the overarching theme of 'Build for India,' this year's event serves as a rallying call for innovators, entrepreneurs, and changemakers dedicated to advancing homegrown solutions.

Under the cohesive banner of 'Build for India,' RIISE 2024 will delve into the transformative realms of technology through themed discussions encompassing 5G/6G, Advanced Multicore Systems, Design for India, Robotics & Space Technology, Bridging Theory & Practice, Computational Gastronomy, Sustainable Mobility, Bharat AI, and Healthcare.

Since its inception in 2015, RIISE has been a pivotal platform for discourse on cutting-edge technologies and research prospects. This year, esteemed experts and thought leaders from both business and academia will illuminate the societal impacts of these technologies.

The event promises to attract a diverse cohort of emerging leaders, innovators, and entrepreneurs. From startup fairs and pitching sessions to networking opportunities and investor talks, attendees can expect a rich tapestry of activities aimed at fostering collaboration and driving innovation.

“RIISE, will highlight some really fascinating work that the students and faculty are doing, some of which carries the potential to bring a change in society. The poster presentations will highlight recent scientific research, developments in technology, and upcoming prospects. Attendees will get the opportunity to network with colleagues and specialists, share ideas, and consider possible joint ventures in RIISE.”, says Prof. Pankaj Vajpayee, Dean of Corporate Relations and Entrepreneurship.

In the words of Prof. Vivek A. Bohara, IIIT-Delhi faculty member and Associate Dean IRD, *"RIISE 2024 presents an unparalleled opportunity for collaboration and innovation. By bringing together academia, industry, and government, we can harness the collective brilliance to create solutions that truly transform lives."*

The event, hosted at the IIIT-Delhi campus, is open to the public and caters to students, researchers, academicians, and industry professionals keen on exploring the latest trends and opportunities. Registration, available through the [Website], is free of charge and mandatory for attendance.

Join RIISE 2024 and be part of a movement to Build for India, shaping the future through innovation and collaboration.
